VARIOUS MARITIME DISASTERS.

Interesting from Mexico.

ARRIVAL OF SANTA ANNA AT YERAZ CRUZ.

NEW ORLEANS, April 12, 1853.

A vessel from Vera Cruz reports that Santa Anna arrived Vera Cruz on the afternoon of the 1st inst. His reception was not very cordial. He immediately left for his hacienda near Jalapa.

ITEMS BY THE MAIL—A GOVERNOR DISMISSED—SANTA ANNA TO CONSULT WITH THE NOBLES—THE ENGLISH BOMBARDIER.

BALTIMORE, April 12—9 P. M.

New Orleans papers of Wednesday have been received. They have Mexican news to the 19th inst, from which we learn that Santa Anna, Governor of Tamaulipas, had been dismissed from office by the Legislature of that State.

The Monitor says that Col. Escobar has invited several nobles to consult with Santa Anna at his residence, about the 5th or 6th of April. Insurrectionary movements had taken place in Mexico and several other portions of the country.

The information, given by Mr. Falconetti to the English nobles, that he had been compelled to pay \$50,000 to buy over members of the Mexican Congress, created great excitement in the capital. The press expressed indignation, and the members of Congress affirm they are ignorant of the transaction.

On the 18th inst., a steamer left the city of Mexico for Vera Cruz, with \$2,070,000, escorted by fifty cavalry and one hundred and fifty infantry, with one field piece.

The Yellow Fever at Rio Janeiro.

RAVAGES AMONG THE SHIPPING.

BALTIMORE, April 12, 1853.

The bark Indus has arrived at this port, with Rio de Janeiro to the 24th March. She reports the fever to be still raging there with fearful violence. The second mate of the bark Rhone had died, and Capt. Higgins, of the bark Indus, lost his wife and son. His daughter and son's wife are also both down with the fever. Capt. Nash, of the bark Atlanta, had lost his wife. The fever was equally bad on shore, and amongst the English, French and Swedish shipping it was still worse.

The Gardner Trial.

WASHINGTON, April 12, 1853.

In the Gardner case, after considerable delay, a telegraphic dispatch was received from the Mexican Consul General, at New York, stating that he would be here to-morrow morning, and, with the understanding that he was then allowed to be examined, the counsel for the defense proceeded.

Mr. Bradley asked leave to state the outline of the evidence produced, but the counsel for the prosecution objected.

When Waddy Thompson was called, and testified that he arrived in the city of Mexico on the 16th of March, 1842, and remained there until the 10th of March, 1844; knew the defendant very well, and that he would be here to-morrow morning, and, with the understanding that he was then allowed to be examined, the counsel for the defense proceeded.

STEAMER EMPIRE STATE—FIRE—NAVAL—FIRE IN MILBURY.

BOSTON, April 12, 1853.

The steamer Empire State, when about forty-five miles from New York, last evening, bound for Fall River, took fire from some derangement of the furnace machinery.

Mr. passengers, over two hundred in number, were taken off by the steamer Commodore for Stonington, where they were landed, and passed on to Boston in the train this morning. The Empire State was not much damaged by the fire, and would be towed to New York this afternoon.

The officers of the ship of the line Vermont have been detached from the vessel, and she is to be laid up in order. The crew of the Commodore and the crew of the Vermont are to be discharged.

On Sunday night, the Leland paper mill and machine shop in Milbury, Mass., were destroyed by fire. Loss \$7,000. Insured in Hartford.

The Bark T. J. Southard.

PHILADELPHIA, April 12, 1853.

The schooner J. H. Flanner, from Porto Rico, reports passing on the 10th inst., 70 miles southeast of Cape Henlopen, the bark T. J. Southard, abandoned, with six feet water in her hold, her masts standing, and her crew on the beach.

THE RAILROAD—THE CATHOLIC SCHOOL EXCITEMENT, ETC.

BALTIMORE, April 12, 1853.

Galveston dates to the 1st inst., state that a large robbery of the mail from the interior of the State to New Orleans had taken place, and James Simmons, a clerk in the Galveston Post Office, had been detected and arrested.

The San Antonio Ledger states that the War Department has authorized General Twiggs, if expedient or proper, to post a military force in the neighborhood of El Paso.

As a caucus of the Board of Directors of the Baltimore and Ohio Railroad, held to-day, it was resolved to elect William C. Harrison, merchant, President, vice Mr. Swann, whose resignation goes into effect to-morrow. The Sueteliana Railroad has been made the order of the day for Thursday next, by the Maryland Senate.

The committee sent down by the meeting last night to Annapolis, to defeat the Catholic School bill, have returned, and report it will not receive ten votes.

The city of Alexandria yesterday voted to subscribe \$50,000 to the Alexandria and Orange Railroad.

Thomas Swan, President of the Baltimore and Ohio Railroad, will positively resign to-morrow.

The stockholders of the Pennsylvania Railroad, by a nearly unanimous vote, have authorized the subscription of \$750,000 to the Marietta and Cincinnati Railroad, \$300,000 to the Indiana and Ohio Railroad, and \$100,000 to the Springfield, Mount Vernon and Pittsburgh Railroad.

THE APPOINTMENT OF MR. BUCHANAN—RUDICULOUSLY MISUNDERSTOOD—THE PRESIDENT'S HANDS STILL FULL OF WORK, ETC.

SPECIAL CORRESPONDENCE OF THE NEW YORK HERALD.

WASHINGTON, April 12—7 P. M.

I understand from ample authority, that there is not even the shadow of truth in the various rumors of disagreeable tests in the cabinet, and swamping, which have been circulated for some days past. On the contrary, the very best feeling prevails. Equally without foundation, and still more absurd, is the statement telegraphed from here that the cabinet was engaged till twelve o'clock on Sunday night endeavoring to induce Mr. Buchanan to accept the mission to England. Such engravings would be beneath the position of the President, and were not used, directly or indirectly, nor even by the press.

Mr. Buchanan's appointment of Mr. Foxworth to the position of Secretary of the Treasury, is a very important moment as to require the removal of all up all night to beg him to take office. This is evident from the fact that he does not propose to resign Mr. Foxworth till the commencement of the fiscal year.

As for the Senate being notified that the President intended to send them a message yesterday, it is explained by the fact that he had told them on Saturday he had no further business; that they would not have been prepared to act upon a nomination if they had not received a notice, and that it was Mr. Buchanan's suggestion the nomination should be at once confirmed, so that the President might commence his mission under the happiest auspices.

It is believed that the other foreign missions will be filled during the next two months, and that no change will be made till after the close of the present fiscal year, so as to avoid the needless expense of duplicating salaries.

There are yet to be filled seven full missions at nine thousand dollars; one Commissioner at nine thousand, and one at three thousand; one Minister Resident at six thousand, and four thousand three hundred dollars, and one hundred dollars each, besides a host of Consuls, &c., &c., &c.

A communication was read from the Warden of Randall's Island, stating that two dead bodies were discovered from the city cemetery on the night of the 8th inst., which information had been received from Captain Wm. Webb, Deputy Mayor of the city, which was referred to the Committee on City Cemetery.

Mr. Townsend moved to take up the report of the Committee on the National Medical Association, which was referred to the Committee on City Cemetery.

(From the Boston Herald.)

On JANUARY, Feb. 21.—Although the yellow fever has not yet been entirely eradicated, it is now an epidemic, yet quite a number of cases have occurred of late among the English residents and seamen, occasioning some anxiety and apprehension. The intensity is of short duration, and is marked by certain striking characteristics, which to a practiced observer, readily serve to distinguish it from other diseases. When taken in its incipient, the treatment is very simple, and consists of mustard bath and stimulants, plentiful doses of castor oil, quinine occasionally, and a low diet. Bloodletting is not resorted to, except in very plethoric subjects, and emetics are never given, as vomiting is always one of the first symptoms. Its contagiousness is a matter of doubt among physicians.

On Wednesday, a pompous and important procession of the Roman church took place in front of the Emperor's palace, in the square, attracting a large concourse of people. A band of military music was in attendance, and a company of Brazilian soldiers conducted the escort. The rain has been pouring in torrents for the last week, rendering the atmosphere quite cool and comfortable, after a prolonged season of intense heat and sultriness. The masked balls closed last week, and the Carnival is now over. An Italian company is performing "Norma," at the theatre "Provinciale," with distinguished success.

Mr. Sewell, keeper of the English Hotel, died last Sunday, of cholera, after having been ill for several days. He was well known to the citizens of Rio, and his death is lamented. A seaman belonging to the bark Sir, of Boston, was buried yesterday.

Religious services were held regularly every Sabbath on board some of the vessels in port, by Rev. Mr. Fletcher, American chaplain. There is also divine worship at the English Hotel, and at the residence of the Consul.

There is a regular steam packet to England, and most of the American papers are received by that conveyance.

There is no American news of war import, nor of any nation—a circumstance somewhat unusual.

The ship Orizaba, from New York for Australia, put in here a few days ago, having had a meeting on board after a prolonged season of intense heat and sultriness. Several vessels are up for Australia and California, to sail soon, and more expected. Sailors' wages are there.
